

Quoting small group (2-50) dental, vision, life and disability

There is a small group rating tool on the Producer Toolbox. Click [here](#) to access the Producer Toolbox.

After logging into the Producer Toolbox, click on the “Incoming Business” tab. You should then click on the “Small Group” tab. The small group quote screen will then appear.

This tool has the capability to quote the following small group Specialty products:

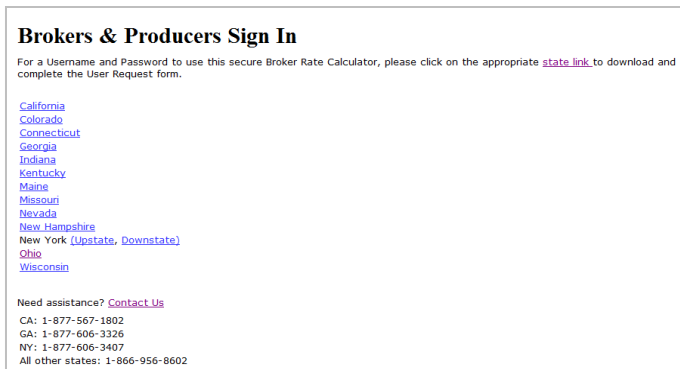

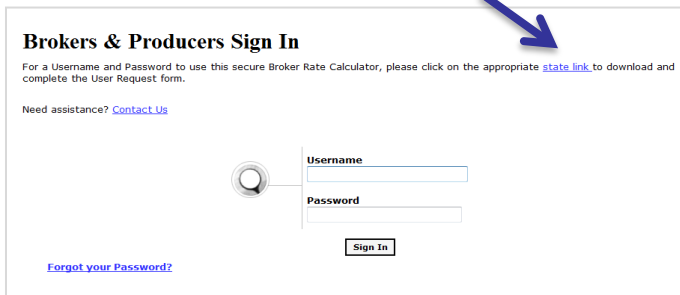

- Vision
- Life and Disability
- Affordable Care Act dental plans

Due to system restraints, the small group rating tool does not have the capability to quote Dental Prime and Dental Complete.

You must click on the link “Dental Prime/Complete” to quote these products. Please note, in the near future the name of this link will be changed to “Dental Prime/Complete Small Group Rating Tool”.

Once you click on Dental/Prime Complete under online resources you will be brought to the below page. Please note that the login for this rating tool is different than your main login for the Producer Toolbox. If you do not have a username and password click on “state link”.

Select your state and a User Request Form will appear.

Complete that form and fax or email it to the contact information on the form to receive a username and password.
